Update Completed for ABHP Examination Preparation Guide

The American Board of Health Physics (ABHP) would like to announce to all interested parties that the online Examination Preparation Guide has recently been updated. The Guide describes the format and structure for the exams given by the Board and provides sample questions for prospective

candidates.

Specific changes to the Guide include updates to the Domains of Practice, References, and the sample Part I questions. The methodology used in the updating of the Domains of Practice will be described in a future article of the "CHP Corner."

The Web address for the Examination Preparation Guide is http://www.hps1.org/aahp/abhp/ prepman/prepman.htm at the American Academy of Health Physics Web site. Approved candidates for the 2004 exam will also receive individual notice of the updated guide.
