Note: Part II Question Number 14 of the Examination inadvertently included some incorrect information. This was identified and taken into account in the grading process. Credit was given both for solving the problem as presented and for solving the problem using the corrected information.

The ABHP and the AAHP appreciate the help of the CHPs who have served on the panels of examiners and have donated many hours of their time to develop and grade the examinations. Without their help the examinations could not have taken place. The members of the panels of examiners were listed in the *CHP News* insert to the December 1996 *Newsletter*.

The help of the CHPs who proctored the 1996 exam is also very much appreciated. Their names, too, were listed in the December 1996 *CHP News*. ■
